

## Back to normal at Temiscaming-Kipawa Multiservices Center

Temiscaming, Friday, March 15<sup>th</sup>, 2019 - The Centre intégré de santé et de services sociaux (CISSS) de l'Abitibi-Témiscamingue wants to inform the population of the resumption of regular activities for all services offered by the Temiscaming-Kipawa Multiservices Center.

At 4 pm yesterday, a partial evacuation notice was issued as a preventive measure. Emergency, laboratory and radiology services have been suspended until 9 am this morning.

The temporary evacuation of those services affected 3 users, one person hospitalized in the short-term unit and two residents of long-term accommodation. These users were relocated to the long-term care and accommodation unit, which was not subject to the evacuation notice.

The CISSS de l'Abitibi-Témiscamingue thanks all the staff members and partners for their exceptional collaboration.
